MITCHELL INSTITUTE PHYSICS ENHANCEMENT PROGRAM 2021

The Mitchell Institute for Fundamental Physics and Astronomy is committed to excellence in physics education in Texas. We are excited to announce the 10th year of our program for new and cross-over high school physics teachers.

MARK YOUR CALENDAR : JUNE 14–25, 2021

The format will be virtual via Zoom, including lectures, discussions, group work, and demonstrations. If on-campus activities become allowed, we will offer the possibility of in-person labs, demonstrations, and tours during the second week of class for those who want to attend. **The program will accept up to 40 participants.**

WE BOOST YOUR PHYSICS CONFIDENCE AND KNOWLEDGE

The goal of our program is to help teachers develop a deeper understanding of physics concepts, explore effective instructional strategies, and experience laboratory activities that will enhance their classroom instruction and impact student performance in physics.

OBTAIN YOUR APPLICATION ONLINE

mitchell.tamu.edu/outreach/mipep

OUR TRAINING

Participating teachers receive in-depth, standards-based training from professors and master teachers during this two week program.

ACCOMMODATIONS

If on-campus activities become allowed, accommodations and a \$350 meal card will be provided. All activities will still be streamed online, except tours.

EARN CREDIT

After program completion, participants will receive 80 credit hours of Continuing Professional Education, including 34 credit hours for G/T curriculum, and 6 credit hours for G/T annual update.
